

ELPRO RoHS Compliance Declaration

As a part of the company's environment policy, ELPRO is committed to using materials more efficiently, reducing the amount of materials used in our products and finding alternatives for hazardous materials.

Although the ELPRO products do not fall within the scope of RoHS (Category 9, monitoring and control instruments), ELPRO hereby declares that the products indicated below are in full compliance with the European Union Restriction of Hazardous Substances (RoHS) Directive 2002/95/EC.

The RoHS directive restricts the use of lead (Pb), mercury, cadmium, hexavalent chromium and two bromine-containing flame retardants: PBB (polybrominated biphenyls) and PBDE (polybrominated diphenyl ethers) in electrical and electronic products.

Since January 1st 2006 the following ELPRO products have all RoHS substances eliminated, to levels below the limits specified in the RoHS directive:

- ECOLOG-NET dataloggers of the xP4, xH2, xA8 series
- ECOLOG dataloggers of the THx and TNx series
- HAMSTER-E dataloggers
- Temperature probes including connectors

By July 1st 2006, the following ELPRO products will have all RoHS substances eliminated, to levels below the limits specified in the RoHS directive:

- HAMSTER -A datalogger
- ECOLOG dataloggers of the TPx series
- HOTBOX-SE and HOTBOX-PRO dataloggers
