

Frederik Dresen

Chief Executive Officer (CEO)

Frederik Dresen has been CEO of ELPRO-BUCHS AG and the ELPRO Group since October 2024. Previously, he worked for over 20 years in small- and medium-sized companies as well as in corporate structures. He has extensive international experience in the development of corporate strategies as well as in the evaluation and implementation of expansion and growth strategies. He attaches particular importance to a clear market orientation and customer-oriented solutions.

The graduate engineer in industrial engineering and management (University of Berlin) also holds a master of business administration from the Norwegian School of Economics (NHH). Frederik gained extensive experience in various Bosch Group companies in Germany, the Netherlands, China, the USA and Switzerland. Most recently, he was CEO of Abraxos Holding AG, an international conglomerate consisting of two traditional companies in the field of precision grinding tool manufacturing (Meister Abrasives AG, Switzerland, and Alfons Schmeier GmbH & Co. KG, Germany).

As a leading solution provider of intelligent stability budget monitoring along the entire pharmaceutical supply chain, ELPRO delivers solutions that maximize efficiency and safety for its customers while ensuring long-term success through close collaboration. Under Frederik's leadership, ELPRO focuses on actively shaping the market through sustainable innovation and developing solutions that make customers' everyday lives easier through process automation. Strategically placed innovation, sales and service hubs worldwide position ELPRO close to the market in order to understand customers' needs precisely, support them optimally and grow together with them.

“My focus is on innovations that shape the market and solutions that simplify our customers' work and make it even safer. Continuous improvement – both in ourselves and in what we do – is crucial for me. Personal relationships and joint growth with our customers are of central importance.”

– Frederik Dresen, CEO, ELPRO
